

Saad Sayeef
CSIRO Energy
saad.sayeef@csiro.au

Dr Saad Sayeef is a Research Engineer in the Grids and Energy Efficiency Research Program within CSIRO Energy, working in the areas of renewable energy integration and energy efficiency. Prior to joining CSIRO, he was a Research Fellow at the University of Wollongong where he worked on the control of wind turbines and energy storage for remote area power supply (RAPS) systems. Saad holds a PhD in Electrical Engineering from the University of New South Wales, Australia.
