

NOKIA

# Kuha Community Hosted Network

### Nokia solution for connecting the unconnected

- + Dramatically reduces the cost of bringing mobile coverage to people in rural areas
- + Involves the communities
- + Enabler for bringing mobile applications to new areas

Environmental monitoring

Tourism

Local market place

Telemedicine Education

#### Connectivity

- + helps the local economy
- + improves quality of life

Community hosted zero touch base station

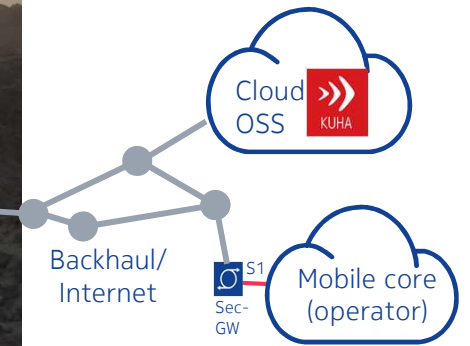

#### Ecosystem for app developers:

- + With Kuha to blue ocean markets with no apps so far
- + Connecting the unconnected - business, public funding, goodwill
- + Makes the world a better place

The target is to reduce the cost (CAPEX) of building rural coverage by 90% when compared to macro based solutions and to reduce maintenance cost (OPEX) by > 75% by enabling communities to care for their base stations.

The end-user experience should be similar to setting up and operating a Wi-Fi access point.
