

Guillermo Jiménez-Estévez

Universidad de los Andes / Energy Center, Universidad de Chile

Guillermo Jiménez-Estévez received his BSc degree in Electrical Engineering from the Escuela Colombiana de Ingeniería, Bogotá, in 1998 and MSc and PhD degrees from the Universidad de Chile in 2003 and 2010, respectively. In 2010 he joined the Electrical Engineering Department, Universidad de Chile, as associate researcher. In 2014, he was promoted as Director of the Energy Center of the Faculty of Physical and Mathematical Sciences, Universidad de Chile leading its transition from academic initiative to formal research center of the Faculty in 2015. Currently he is associated professor and Director at the Department of Electrical and Electronics Engineering, Universidad de los Andes, Bogotá, Colombia, member of the research group in Energy and Environment (EA) and associated researcher of the Energy Center, Universidad de Chile. Since 2012 he has been member of Microgrid Symposiums series Steering Committee. He has developed solutions for power system planning and operation, renewable energy, distributed generation, micro grids and regulation, proposing the framework for the Distributed Generation regulation in Chile, among others. He has led different projects based on distributed generation and microgrid solutions in Chile, Mexico and Colombia.
