

Alexandre Prieur, **M.A.Sc., P. Eng.**

Since 2018, Alexandre is Director of the Renewable Energy Integration group at CanmetENERGY, an energy and science research laboratory of the federal Department of Natural Resources Canada. His research team of over 30 researchers and engineers focus on grid integration of renewable energy and Smart Grid. Between 2009 and 2018, he managed multiple smart grid research projects at NRCan.

Alexandre holds a Bachelor's Degree in Electrical Engineering from the Ecole de Technologie Supérieure and a Master of Applied Science from Ecole Polytechnique Montreal. Prior to joining NRCan in 2009, he worked for 10 years in the private sector, in the telecommunication industry.
